Subject: [External] Dominion Energy

April 7 2022 please do not pass the rate increase for Dominion Energy. Please do let them keep charging the customers more every time they want to start a project are when other things cost them. It's not the customers fault that they are buying solar power and it is costing them more. The costumers have no way to increase their paychecks when prices start rising. This is a multi million dollar company if not more a year. I don't think it would hurt them not to get this increase. Please watch out for the citizens in South Carolina and VOTE NO on the increase. Thank you !
